## Print on a Different Camas

## COMPLETE RANGE OF SOLUTIONS

Aura Optical Systems offers a range of reflective vinyl products for all of your signing and graphics applications. Each product features a premium cast vinyl face to ensure consistent performance over time. From eco-solvent ink jet printing to latex or UV flatbed printing, each AURA® reflective vinyl product is engineered to meet your digital printing needs.

**AURA® 122 Digital Commercial Grade**. Reflective vinyl for short-term signing or graphics applications. Durability up to 3-years.

**AURA® 124 Digital Engineer Grade**. Durability up to 7-years for permanent traffic signing applications. Meets the requirements of ASTM D-4956, Type 1 and EN-12899, Class 1 and other industry specifications.

**AURA® 127 Reflective Vinyl**. A highly flexible and conformable reflective for vehicle graphics and commercial signing. Contains an adhesive system that can be removed cleanly from many automotive paint surfaces through the use of heat.<sup>‡</sup>

**AURA® 127J Reflective Vinyl.** A stiffer and less flexible version of the AURA® 127 product. Perfect for sign-cutting or application to flatter surfaces.

**AURA® 128S Vinyl Commercial Grade.** A thin reflective film for security applications where tearability or destructibility is critical.
